

WINTOOL TOOL MANAGEMENT SYSTEM INTEGRATION WITH CRIBWISE®

INTRODUCTION

Unlock the full potential of your manufacturing operations with our seamless integration solution for CRIBWISE® and WinTool Tool Management System (TMS).

This integration is designed to bridge the gap between your tool management and tool library system, allowing for effortless synchronization of tool data and stock levels. Experience the convenience of having real-time inventory updates within WinTool and streamline your production or shop floor efficiency with ease.

Elevate your production with the smart synchronization that our integration offers, ensuring that your operations are always running smoothly and efficiently.

BENEFITS:

- Re-use tool data created in WinTool TMS in CRIBWISE® inventory management
- Get up-to-date stock level information for your CAM engineers without having to switch applications.

WINTOOL TOOL MANAGEMENT SYSTEM INTEGRATION WITH CRIBWISE®

REQUIREMENTS

CRIBWISE® Professional Cloud offering is required – please note this is not yet available for on-premise installations.

The “WINTOOL Tool Management System” addon must also be enabled on your CRIBWISE® subscription.

Other requirements include:

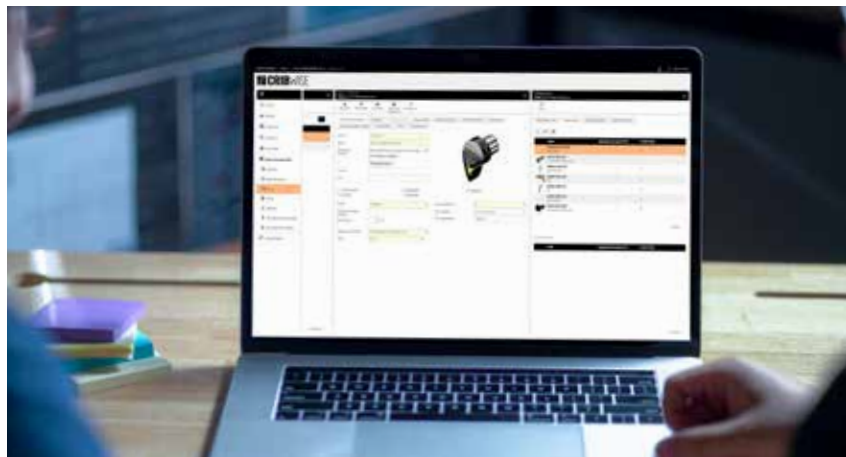

- User with access to CRIBWISE® Admin Portal and that has role “Administrator”
- Tool Dispenser interface v1.18 or newer enabled on your WinTool installation
- User in WinTool that has access to manage cost centers.

User that has access to the “WT-ToolDispenser-Interface.ini” interface configuration file. CRIBWISE® online Help Center contains further details on how to setup this integration:

<https://cribwise.com/help-center/wintool-tool-management-software/>

CONSIDERATIONS

At the time, CRIBWISE® does not support creation of picks list based on tool list data in WinTool. However this is a feature that is currently in development and will be available in due course.

 **CRIBWISE**

It's time for **CRIBWISE®**
