Smart storage for smarter operations

From cabinets to cribs: Storage solutions to optimize
your tooling and inventory management

CRIBWISE

Enhance efficiency, reduce costs

Effective storage is the backbone of efficient tooling and inventory management. Whether you're managing small, intricate precision tools or assemblies and spare parts - having the right storage solution is essential for maintaining productivity, reducing downtime, and safeguarding your assets.

At CRIBWISE, we understand that every operation is unique, which is why we partner with a wide range of storage manufacturers that offer systems tailored to different inventory types, sizes, and operational needs.

From secure cabinets and tool cribs to modular options and advanced vending solutions, CRIBWISE integrates seamlessly with most storage systems and brands, ensuring you can maximize your existing setup while enhancing inventory control and accessibility.

CRIBWISE

A diverse portfolio

We partner with industry-leading storage solution providers across the globe, to offer a wide range of storage options to suit all business needs.

Regardless of the system's size, configuration or design, each solution offers:

Security
Controlled access to prevent unauthorized use

Durability
Robust construction to protect assets from damage, theft and environmental factors

Accountability
CRIBWISE provides audit trails to track who has accessed what and when

Flexibility
Adjustable systems in various designs and configurations to accommodate differing asset sizes and types
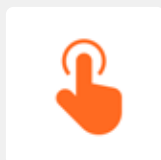

Modularity
The ability to add-on extra storage as your operations scale up

Minimality
Compact designs that maximize storage capacity while minimizing floor space usage

Accessibility
Smart organization for quick tool dispensing and return. User-friendly layouts that enhance usability. Solutions designed for round-the-clock availability

Reliability
Industrial, heavy-use solutions that minimize downtime due to repairs or servicing

A complete management solution

We offer plans and solutions to suit all types of manufacturing and engineering businesses.

Talk to our experienced team about your inventory challenges and we'll help you to find a solution that optimises your teams, workflows, and operations.

Find an inventory management solution for your needs

Success starts with two criteria – physical location and a process. From there, it's about security preferences and maximizing efficiency. Strategic choices can significantly boost productivity and profitability.

Our experts will help you assess your current process or build one from the ground up. Understanding your starting point is the first step to making informed decisions.

Which of the following best describes your current process?

## Software only installation

If any of these statements below describe your operations, a software only installation could be ideal – giving you complete data, functionality and automation for a streamlined inventory.

- Have proven processes
- Smaller workforce
- Smaller facilities, fewer machines
- Lower value inventory
- Existing hardware installation: capable of integration
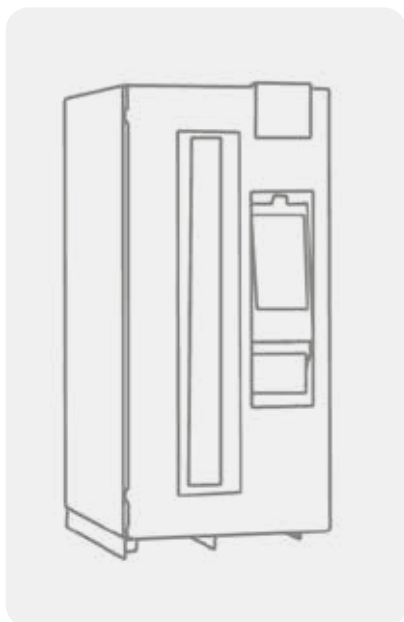

Software and Hardware

If proximity and security are your top priorities and if any of the statements below apply to your operations, a software and hardware solutions is right for you.

- Require process development
- Larger workforce
- Larger facilities, more machines
- Higher value or specialized inventory
- No existing hardware and / or no integration possible
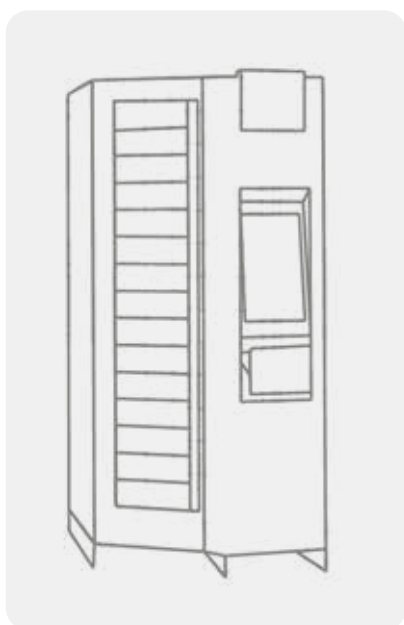

Storage systems: Your options

AUTOCRIB ®
Premier Distributor

ROBOCRIB TX750 is a highly customizable and cost-effective solution. This flexible machine, with total access control, can easily be reconfigured at the customer site as needs change.

|	
Configurations:	Up to 987 SKUs at 50mm bin height
Dimensions:	W: 866 mm x H: 2017 mm x D: 1052 mm
Weight capacity:	544 kg

AUTOCRIB ®
Premier Distributor

ROBOCRIB VX500 is a high density, flexible and fast industrial vending solution. The variety of available bin sizes makes managing both small and large items a possibility.

Configurations:	Up to 628 SKUs
Dimensions:	W: 864 mm x H: 1930 mm x D: 990 mm
Weight capacity:	327 kg

AUTOCRIB®
Premier Distributor

AUTOLOCKER FX is a fully modular and smart locker system. The solution is customizable and can easily be configured or reconfigured to fit your business needs.
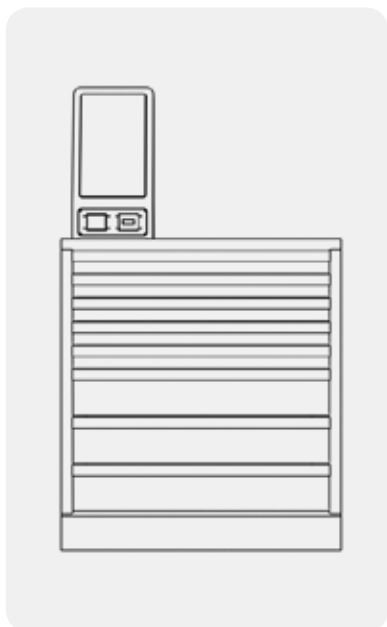

Configurations: Completely modular

Dimensions: W: 705 mm x H: 1905 mm x D: 648 mm

Weight capacity: 18-90 kg per module

AUTOCRIB®
Premier Distributor

AUTOCAB FX is a cabinet solution which offers a high density and medium security inventory management system. Suitable for general supplies such as personal protective equipment and MRO.

Configurations: ~200 SKU's through a variety of bins, shelves and divider systems

Dimensions: W: 1320 mm x H: 1956 mm x D: 864 mm

Weight capacity: 45 kg per shelf

# SIGNIFI
Solutions Inc. ™

SIGNIFI SIGNIFI offers an intelligent and modular, drawer-based solution designed for high-density, secure storage and retrieval. This system maximizes storage per drawer, offering alignment to product and capacity needs. Interchangeable drawer options provide ultimate flexibility.

|	
Configurations:	Interchangeable drawer and compartment options: High density = 56 compartments Medium density = 28 compartments Low density = 14 compartments
Dimensions:	W: 1028 mm x H: 1729 mm x D: 81.5 mm
Weight capacity:	50 kg per drawer

SIELAFF: A dispense machine which fully controls both small and large items. Can easily be configured and reconfigured to fit changing needs. Items must be packaged for the pusher to function optimally.

Configurations: Up to 840 SKU's
Dimensions: W: 1040 mm x H: 1830 mm x D: 880 mm

KU WAY
KEEPING EVERYTHING FOR YOU

KUWAY: Cost effective desk/shelf/floor solution with individually locked drawers. Recommended to serve as an auxiliary machine, suitable for carbide inserts, drill bits and spare parts.

Configurations: 99 SKU's
Dimensions: W: 890 mm x H: 820-1240 mm x D: 450 mm

LISTA

LISTA: A high-end, locked drawer solution. Customizable upon order, configurable to fit your business need through a wide variety of different sized compartments, with or without lids.

Configurations: Up to 648 SKU's
Dimensions: W: 717 mm x H: 1100-1680 mm x D: 725 mm

Add-on integrations

CRIBWISE offers seamless integration with leading storage solution providers, including **Kardex, Modula, Weland Solutions and Hänel***, giving you the flexibility to build an inventory storage system that perfectly suits your needs.

By connecting with these advanced storage solutions, CRIBWISE enhances your ability to track, manage, and optimize tooling inventory across multiple platforms. This integration eliminates data silos, streamlines workflows, and ensures real-time visibility into your inventory.

Whether you're leveraging vertical lift modules, automated retrieval systems, or custom shelving solutions, CRIBWISE brings them all together into one unified platform, delivering enhanced efficiency, reduced downtime, and maximum return on investment.

*Note
These systems are not sold by CRIBWISE – only the integration capability is sold as an add-on.
Each system has its own specific prerequisites.

Support worldwide

CRIBWISE's global support partner network ensures that no matter where your operations are located, you have access to expert assistance and comprehensive solutions.

Our trusted partners are strategically positioned worldwide, providing support tailored to your unique needs. From installation and training to maintenance and troubleshooting, CRIBWISE partners deliver timely, high-quality service that maximizes uptime and keeps your operations running smoothly.

With a focus on local expertise and global reach, our partner network enables seamless integration, empowering your business to stay ahead with efficient, reliable tooling and inventory management.
